March 21st-7 am

Church Work Day

## Letter from Apostle

Hello month of March. This month has always been a month of change in weather, at least where we live here in Alabama. It's when we see the new growth beginning to peak out due to the warmth of the earth. This causes the sap to begin to rise within the tree in which it is housed. It's a sign of change.

Yahshua commented on seasons and associated it with discernment. In my opinion, He was giving a view of what to look for in the spirit dimensions. He did this in order to know that change was coming and what that change would be. This is so important in order to not be caught off guard and surprised and be ill prepared to handle the change. It's even more than just handling the change but seizing the opportunity of the change.

Since I've been called Up Here within Zion I've been made aware that there are no seasons here so how discernment comes is from another perspective. How to

What an amazing day/age that we have been given to live in, to walk in the earth as sons, and to “re-member” the realms and dimensions of heaven. Every time I think about what all we have been given, I become overwhelmed with amazement, gratitude, and the absolute goodness of Yahweh. HE IS SO GOOD! It still blows my mind that HE has entrusted us with all of these secrets and mysteries that we’ve been given. I am so honored and humbled to be apart of this great exchange in the earth! There has never been a day as TODAY.

Where do we start? I know there may be more than one answer to this question but for me, it’s with identity. It’s so appropriate that in the first throne room, apostle Aaron’s revelation of the 4 throne rooms, we must deal with our identity first before we enter into any other throne room. We must know who we are, who Yahweh says we are. How can we change that which is around us if we haven’t changed and re-identified that which is within us?

Do you know your name? Not your earthly name but the one Yahweh wants to re-identify you with. If you haven’t, I encourage you to listen for it and if you have, then let us breath it in, let us engage it over and over, let us BECOME it. Is it easy? Absolutely not. Is it challenging? Yes! If it were easy, I believe we would miss so much! Let it not be a burden, although heavy, it’s full of glory, let it be a fun journey. I believe our names are a key. A key that unlocks, revealing new dimensions of Yahweh’s glory in us!

Sarah Smith, Designer, Scrolls of Zebulon

understand this place requires The Seven Spirits to reveal our new position.

The gifts given to us on February 2nd will unlock this mystery of how to live from within a 4D Zion, where there are no seasons, while physically living in a 3D world. Those living on the equator probably can’t relate to this analogy but they do have their rainy seasons and so on. I believe Yahweh desires we learn how to live within this 3D world from within 4D Zion. I’m convinced that this is His heart. We will discern this amazing place as we can quit looking unto the seasons of earth first. This will come from within us as we engage with our gifts of what we know.

We are in a position of searching our hearts to see what we believe and being determined to not fall back and cave in to the seasons dictated by the four corners.

Engaging my scroll,  
Aaron  
From the Melchizadek order
